

Ways You Can Increase Flu Vaccination Among Healthcare Workers

The Los Angeles County Health Officer Order requires **all** healthcare staff to be vaccinated against flu. If declined, staff **must** wear a mask throughout flu season.

Post the Health Officer Order

Use posters to remind staff of Health Officer Order, and enforce the masking rule.

Provide stickers for employee badges

Provide stickers for the IDs of those that get vaccinated.

Give incentives

Reward staff and units that achieve high vaccination rates.

Set the example

Hold vaccination clinics, and have top administrators show their support and set the example.

Use technology

Post reminders as screen savers and on facility webpages.
