

Sexually Transmitted Infections (STIs) Home Test Kit Referral

Patients can scan the QR code to view a video on how to use the STI home test kit:

Chlamydia • Gonorrhea • Trichomoniasis • Syphilis • HIV

Sexual Health Clinic Business Office Staff:

Please offer the following patients the option for an STI Home Test Kit.

(This opportunity will be available until October 2022 based on supply.)

Patients are asymptomatic.

Patients who are unable to wait.

Patients who are being turned away due to capacity.

Patients are comfortable using electronic devices to access a secure portal.

This clinic is closed due to staffing/maintenance.

Patients have a mailing address and phone number to activate and dispatch kit.

If patients are interested, please obtain the following information and send to Dr. Raj via e-mail (below). Inform the patient that the Department of Public Health will contact them via phone within 24 hours or sooner (except on weekends or holidays):

Last Name, First Name, Date of Birth

Phone number and good time to call to activate and dispatch kit

Email address

Dr. Shobita Rajagopalan (Raj)
